THE NEW YORK DIET KITCHEN ASSOCIATION maintains nine kitchens or milk stations at carefully selected points throughout the city, where pure milk is sold at grocery store prices to those who can pay, or dispensed on requisitions from co-operating agencies. 1,019,650 quarts of milk were dispensed from these stations during the past year.

¶ Besides supplying certified milk to mothers and babies, these kitchens furnish milk for tuberculosis patients, anæmic and convalescent children, and cases of general illness to an extent that no other association in the city has yet approached.

¶ In addition to their milk work, the stations have become educational centers where conferences for mothers and babies are held throughout the year, and to which many problems of family life are brought for help and solution.

¶ The Association co-operates with about fifty charitable and philanthropic agencies of the city, among which are the Charity Organization Society, the Association for Improving the Condition of the Poor, the Presbyterian, Roosevelt, German, Mt. Sinai, Good Samaritan and New York Dispensaries, Bellevue and Beth Israel Hospitals, Society of St. Vincent de Paul, Dominican Sisterhood, Beth-El Sisterhood and the Auxiliaries of the Department of Health.
